## Pearson Edexcel International GCSE (9–1)

**Monday 22 May 2023**

Afternoon (Time: 1 hour 10 minutes)

Paper  
reference

**4GE1/01**

### Geography

#### PAPER 1: Physical Geography

**You must have:**

Resource Booklet (enclosed), calculator

Total Marks

### Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- In Section A, answer **two** questions from Questions 1, 2 **and** 3.
- In Section B, answer **one** question from Questions 4, 5 **and** 6.
- Answer the questions in the spaces provided
  - *there may be more space than you need.*
- Calculators may be used.
- Where asked you must **show all your working out with your answer clearly identified** at the **end of your solution.**

### Information

- The total mark for this paper is 70.
- The marks for **each** question are shown in brackets
  - *use this as a guide as to how much time to spend on each question.*

### Advice

- Read each question carefully before you start to answer it.
- Check your answers if you have time at the end.

Pearson

## SECTION A

Answer TWO questions from this section.

Some questions must be answered with a cross in a box . If you change your mind about an answer, put a line through the box  and then mark your new answer with a cross .

If you answer Question 1, put a cross in the box  .

### 1 River environments

(a) Identify **one** physical factor that affects river regimes.

(1)

- A** amount of rainfall
- B** building a reservoir
- C** building a football stadium
- D** size of river mouth

(b) (i) Identify the best definition of a meander.

(1)

- A** where two rivers meet
- B** a bend in a river
- C** the starting point of a river
- D** where a river meets the sea

(ii) State **one** type of erosion that takes place in a river.

(1)

(c) Explain **one** way human activity affects water quality.

(2)

(d) Study Figure 1a in the Resource Booklet.

Explain **two** ways in which a river changes along its course.

(4)

1 .....

.....

2 .....

.....

.....

(e) Explain how deposition leads to the formation of levees.

(3)

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

P 7 1 1 9 4 A 0 3 2 8

(f) Study Figure 1b in the Resource Booklet.

Identify the river feature at **X**.

(1)

(g) Explain **two** causes of river flooding.

(4)

1

2

DO NOT WRITE IN THIS AREA  
DO NOT WRITE IN THIS AREA  
DO NOT WRITE IN THIS AREA

(h) Study Figure 1c and Figure 1d in the Resource Booklet.

Analyse reasons why water management in the 21st century can be challenging.

Refer to the resources in your answer.

(8)

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

**(Total for Question 1 = 25 marks)**

If you answer Question 2, put a cross in the box  .

## 2 Coastal environments

(a) Identify the coastal landform created by deposition.

(1)

- A** cave
- B** cliff
- C** spit
- D** wave-cut platform

(b) (i) Identify the best definition of hydraulic action.

(1)

- A** where waves pick up stones and they hit the cliffs
- B** waves hit the cliffs forcing pockets of air into cracks
- C** waves carry material along the coast
- D** where rocks are dissolved by sea water

(ii) State **one** type of weathering process.

(1)

(c) Explain **one** way human activity can threaten coastal ecosystems.

(2)

(d) Study Figure 2a in the Resource Booklet.

Explain **two** factors that could influence landforms on this coastline.

(4)

1 .....

.....

.....

2 .....

.....

.....

(e) Explain the process of longshore drift.

(3)

.....

.....

.....

.....

(f) Study Figure 2b in the Resource Booklet.

Identify the coastal management strategy shown.

(1)

.....

.....

.....

.....

(g) Explain **one** advantage and **one** disadvantage of soft engineering strategies.

(4)

P 7 1 1 9 4 A 0 1 1 2 8

If you answer Question 3, put a cross in the box  .

### 3 Hazardous environments

(a) Identify the hazard often associated with earthquakes.

(1)

- A** landslide
- B** volcanic bombs
- C** heavy rain
- D** high wind speeds

(b) (i) Identify the statement that best defines a constructive plate margin.

(1)

- A** tectonic plates collide
- B** tectonic plates move towards each other
- C** tectonic plates pull apart
- D** tectonic plates move alongside each other

(ii) Define the term **hot spot**.

(1)

(c) Explain **one** way people can prepare for earthquakes.

(2)

(d) Study Figure 3a in the Resource Booklet.

Suggest **two** reasons why tropical cyclones can cause damage.

(4)

1 .....

.....

2 .....

.....

(e) Explain **one** reason why emergency aid can be important for responding to earthquake events.

(3)

.....

.....

.....

.....

(f) Study Figure 3b in the Resource Booklet.

Identify the feature shown at **X**.

(1)

.....

.....

.....

.....

P 7 1 1 9 4 A 0 1 3 2 8

(g) Explain **two** hazards associated with volcanic eruptions.

(4)

1 .....

2 .....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(h) Study Figure 3c and Figure 3d in the Resource Booklet.

Analyse possible reasons why some countries are more vulnerable to the impact of earthquakes.

Refer to the resources in your answer.

(8)

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(Total for Question 3 = 25 marks)

**TOTAL FOR SECTION A = 50 MARKS**

**SECTION B****Geographical enquiry**

**Answer ONE question from this section.**

**Some questions must be answered with a cross in a box . If you change your mind about an answer, put a line through the box  and then mark your new answer with a cross .**

**If you answer Question 4, put a cross in the box  .**

**4 Investigating river environments**

You have carried out a geographical enquiry as part of your work on river environments.

Title of your geographical enquiry

---

---

(a) Describe **one** way you managed a risk that you identified during your enquiry.

(2)

---

---

---

(b) Explain **one** way you decided on your sites for data collection.

(3)

---

---

---

---

---

DO NOT WRITE IN THIS AREA

(c) Describe **two** types of data collection method you used during your enquiry.

(4)

1 .....

2 .....

(d) Explain **one** technique you used to analyse your data.

(3)

.....

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(e) Study Figure 4a and Figure 4b in the Resource Booklet. They show some information about data presentation from a student's enquiry.

The aim of the student's enquiry was to investigate changes in river characteristics. The student made field sketches of the data collection sites, and collected data on river velocity, river discharge and bedload size.

Evaluate the effectiveness of the data presentation techniques used by the student.

(8)

DO NOT WRITE IN THIS AREA

Flood walls  
(new walls completed in 2018)

Water pump stations  
(completed in 2017)

Flood gate  
(completed in 2012)

#### Information about Hurricane Katrina, 2005:

- 1,000 people died.
- 200,000 homes and businesses destroyed.
- 800,000 people forced to leave.
- 50 flood walls and levees failed due to poor maintenance and lack of investment.

#### Information about flood prevention in 2021:

- After Hurricane Katrina US\$14 billion network of levees and flood walls were built to protect New Orleans. There are reports that this protection may only last a few more years due to rising sea levels and shrinking levees.
- During Hurricane Ida in 2021 no levee or flood wall was broken or flooded.

**Note: Water pump stations remove water from the area in a flood event**

**Figure 2d**

#### Information about coastal flood protection in New Orleans, USA

## Saffir-Simpson hurricane wind scale

### Category 1

Minimal damage

Winds  
**119–153 kph**

### Category 2

Moderate damage

Winds  
**154–177 kph**

### Category 3

Extensive damage

Winds  
**178–208 kph**

### Category 4

Extreme damage

Winds  
**209–251 kph**

### Category 5

Catastrophic damage

Winds  
**252 kph and more**

## Erratum Notice

**4GE1\_01**

**Pearson Edexcel International GCSE Geography  
Paper 1: Physical Geography**

**Exam date: Monday 22nd May 2023**

### Instructions for the Examinations Officer

Please be advised that there is an error in the Pearson Edexcel International GCSE Geography, Paper 1: Physical Geography, Resource Booklet, page 12, Figure 3c.

The sequence in the resource booklet currently reads:

<5, 5-24, 24-50, 50>

It should read:

<5, 5-24, 24-50, >**50**

Before the start of the examination please ask students to amend their resource booklet.

Please accept our apologies for any confusion caused.

International Science Team

**E71194A**

**P71194EA**

A standard 1D barcode representing the number P71194EA. The barcode is composed of vertical black lines of varying widths on a white background. Below the barcode, the characters 'P', '7', '1', '1', '9', '4', 'E', and 'A' are printed in a small, black, sans-serif font, spaced evenly to correspond with the barcode's segments.
